

TILLMAN WANTED TO SEE JOHN-SON IN SENATE.

Now That His Dream is to be Grati- fied, Physicians Forbid Him to Attend Coming Session.

Washington, March 23.—Benjamin Ryan Tillman, the aggressive and powerful power of the South, spent part of last week with his parents at Ches-

ter. Rebecca Elliott has returned from a visit to relatives at Blen-

ham. Miss Edith Bridges, of Elrod, N. C., is visiting relatives and friends in town.

Mr. and Mrs. J. V. Malcom have moved into the residence at Mr. C. H. Burroughs.

Mrs. Burkette, and Mrs. Thompson, of Sumter, are visiting Mrs. D. M. Michaux.

Mr. and Mrs. Terrill Rogers, of Blenheim, spent Sunday with their aunt, Mrs. C. S. Browne.

Mr. and Mrs. T. W. Betha, agent of the long been my earnest desire, and now that it is to be fulfilled I am to be denied the privilege of serving with him.

"HUB" WANTS "NO NOL PROS-ING."

Desires to "Be Convicted or Vindi- cated." He Says, Tells Why He Gave Up "T. B." Letters—Evans and Towell See the Governor.

Columbia, March 23.—Special: "Hub" Evans declared to-day that Thomas B. Felder, the Atlanta attorney, had held up his own trial as a "lash," and that he is demanding trial.

"I will take no nol prosing of my case," added Evans.

I want to be tried and convicted or vindicated, as the case may be," further declared the Newberry ex-chairman of the dispensary board.

Evans declared also that he did not ask for any immunity from any-

one. It was stated a few days ago by Governor Bleasde that Evans had not sought immunity from him, nor had he promised immunity for the letter signed "T. B."

As to the other letter Evans said: "Well, if a mutual friend of ours found it and carried it to Cole, it's all right with me, I looked every- where for the letter and could not find it."

"Why didn't you give up these letters before Evans was asked."

Why He Gave Up Letters.

"Well I had turned over all my letters to my attorney and the first letter published was one of them. I let the investigation go on. I told them at the very jump that I would put nothing in their way. If they could find anything against me I wanted them to do it. When I learned that Felder was holding my trial as a lash I determined to give up the letters."

Evans was standing in the outer office of the Governor when he made these remarks to several list- eners. He talked freely of the dis- pensary situation and reiterated much that he had said in previous statements.

He reiterated especially his re- marks, quoted a few days ago, that if the dispensary houses were guilty of wrong-doing in State dispen- sary days they are now guilty of the same, as the county dispensar- ies are still buying from many of the same houses. "A perusal of the published lists will show this," added Evans.

Evans said: "The county dispen- saries are now buying the same li- quor the State dispensary did, pay- ing the same prices, and higher. You talk about a firm turning over \$30,000 the other day. Well, then the county dispensaries pay back \$100,000 for that."

At the time also Evans said:

While in Atlanta.

"Felder did send for me to come to Atlanta. When we were in the room together I said to him: 'Open that door, you, and let the At- torney General hear everything I have got to say.' This was in reference to a meeting Governor Bleasde referred to in his message to the General Assembly."

"Hub" Evans came in to-day from Newberry and went direct to the governor's office, after running up to a local hotel and putting his suit case up. He was in a jovial mood.

In a few minutes John Bell Tow- ell entered the office. Governor Bleasde was engaged at the time and the visitors chatted in the out- er office.

It so happened that Mose H. Mobley, now dispensary auditor, who was chief bookkeeper in State dispensary days, was in the office at the time.

"Evans wants to be tried," he said. "He will not permit the case to be dropped."

"If you were indicted for a crime wouldn't you want to be tried, so that, if innocent, you could be vin- dicated?" said Evans to those around him.

LETTER FROM GOVERNOR GETS HIM WHISKEY.

It Had Been Seized by Constable, But Message From Bleasde Causes Its Delivery.

Anderson, March 23.—On an or- der from Governor Bleasde, a pack- age containing two gallons of whis- key, shipped to Belton to Jim Mc- Minn of Piedmont, and seized there by Officers Robertson and Smith, turned over by them to Constable Olin Sanders and by him to Sheriff King, has been returned to McMinn, who came here this morning from Piedmont, bringing the letter, which was shown to Constable Sanders and the sheriff. McMinn returned to Piedmont later in the day taking the package of whiskey with him.

The seizure of the whiskey was made several days ago, along with several other packages taken by the officers from the Belton express of- fice at the same time. McMinn wrote the governor about the mat- ter, after he had called at the Bel- ton express office and learned that the package had been seized. The result was the receipt of the letter just referred to and which has been responsible for McMinn re-

ceiving the package.

During the past several days 11 gallons of whiskey has been seized by Constable Sanders, assisted by other officers, at the Belton express office. They have followed out the usual custom of taking whiskey as- signed to any person who may be in any way suspected of dealing in the stuff. The fact that McMinn lives at Piedmont and the whiskey was shipped to him at Belton appeared a little out of the ordinary, so the whiskey was taken.

McMinn had little to say about the matter. He merely showed the letter to Constable Sanders and Sheriff King and the package was returned. On the books of the sheriff appears an entry showing the whiskey had been returned to McMinn on an order from the gov- ernor.

COLIN ODOM RELEASED.

No Case Against Man Charged With Conspiracy to Murder.

Bennettsville, March 22.—Special: Colin Odom who was arrested sev- eral days ago charged with con- spiracy to murder William Barrington, was given a preliminary hearing to-day and discharged. Geo. W. Bullard and William Barrington killed John, and the effort was made to show that Colin Odom and John Odom had conspired to kill Barrington. After calling a num- ber of witnesses, the prosecution requested the magistrate to dismiss the case on the ground that the State had failed to make out its case.

Bullard and Barrington are men of considerable property and influ- ence in their community. Messrs. Townsend & Rogers represent Bul- lard and Odom, and J. K. Owens and W. F. Stevenson appeared for Colin Odom and it is understood, will assist the solicitor in the prosecution of Bullard and Barrington.

MORE THAN ONE PER DAY.

Governor Bleasde's Record in Grant- ing Executive Clemency.

Columbia, S. C., March 22.—Special: Governor Bleasde has passed the one-per-day mark in his exer- cise of Executive clemency. He has been in office sixty-four days. In that period he has granted clem- ency in various forms to 66 convicts. Pardons, 31; paroles, 10; commu- tations, 25. Total, 66.

Many of the commutations have been "to date" so that they are in effect out right paroles, except that they have not restored citizenship. With the same limitation, most of the paroles have also been in ef- fect paroles.

This compilation was made early to-day. By the time it is published the Governor may have exercised his right of Executive clemency in other cases, for he has before him a number of other petitions.

The Triumph of Plastic Surgery.

Scientific skill is restoring to a man in this city the features wiped out by an accident.

He fell face downward in a set of revolving cogs. Thereafter he could see, but he could not eat; he could not talk; his nose was gone; his face had ceased to be a human face; it had become a mask to shudder at. Plastic surgery sup- plied the chin, the mouth, the lips that an invention of man had ob- literated and now surgery is form- ing a nose for the victim from his own little finger.

put to a good use. It brings us back to the 17th century, when a skill equally marvelous was put to a bad use. When the Comar- chos wrought in human flesh and made the child created in the im- age of God into a monster for kings and court ladies to laugh at. When the Chinese imprisoned growing youth in fantastically shaped vases with feet and heads free, and on maturity smashed the prison and released monstrosities. When Jussu Regis, the innocent babe, was sprinkled with stupefying powder that none could know him, like the tragic Laughing Man of Victor Hu- go.

Skill for evil deeds is being sure- ly transformed in the melting pot of progress into skill for noble deeds. Humanity is the underlying motive of the twentieth century.—N. Y. American.

Why He Kissed Her.

(From the Philadelphia Times.)

Daniel J. Shern, who practices law when he isn't guiding the House of Representatives, was reminded of a story when he read the verdict in the breach of promise case against young Walling in New York.

"I was counsel for the girl in a case once," said the lawyer, "and I thought we had a good case. One of the strongest points was the ardent wooing of the defendant. We stipulated at least 1,244 kisses he had planted upon the fair one's ruby lips. Imagine the surprise when the defendant admitted it."

"That's true," said he, testify- ing. "I had to do it," he explained. "Had to do it?" I roared, hoping to embarrass him.

"Yes," he answered, "I either had to keep kissing her constantly or permit her to sing, and—well, I preferred the kissing."

A Work of Patience.

It took forty weeks to plant Pacif- ic salmon in the East—a work of patience.

"Yes it has been a work of pa- tience," said Fish Commissioner Bowers in an interview. "Such pa- tient work makes me think of the ticket agent in the railway station."

A woman said to the ticket agent angrily: "Look here, sir, I've been standing before this window twenty-five minutes!"

The agent, a gray, withered little man, answered, gently, "Ah, madam, I've been standing behind it twenty-five years."

Hard to Please.

(Youth's Companion.)

Early in the season a man applied at a farmhouse for board. "I'd be glad to keep you," he said, "but city people are too hard to please."

"I'm not at all exacting," the applicant replied. "You will find no difficulty in pleasing me."

"That's what the last man who

come along here said, but it wasn't so. Fact is, nothing pleased him. First he complained about sleeping in a bed with the hired man, and when we gave him a bed to him- self in a room with four children he was still dissatisfied."

"Then he didn't like to use the towel we all used, and he wanted a wash basin in his room. Nothing suited him at all. I don't know whether you would be hard to please or not."

Judge Shipp Makes Fine Impres- sion.

Judge Shipp, who is presiding at the present term of court has made a splendid impression not only up- on the officers and court attend- ants but upon every one with whom he comes in contact. Although a young man Judge Shipp is one of the ablest Judges on the Bench and he presides with a natural grace and dignity that at once attracts the attention of everybody who has business with the court. One of Judge Shipp's strongest character- istics is a deep consciousness of the power of the Bench, and know- ing the frailties of human nature he always endeavors to temper justice with mercy. His excellent judicial temperament, combined with a pro- found knowledge of the law and a most delightful personality, will some day elevate him to the su- preme bench, although his call to a position of greater responsi- bility will deprive the circuit bench of one of its ablest members.

Here's a Million if You Find a Use For "Breeze."

Hammond, Ind., March 18.—The United States Steel Corporation is willing to pay a million dollars to the man who will discover a method which will enable the company to profitably dispose of a by product which is called "breeze."

The Steel Corporation uses all its waste product save "breeze." Gas escaping from the blast furnaces is converted into power by producer gas engines. Dust escaping from the cement works at Buffington in tons is now captured and converted into salable product, but "breeze" so far is a waste. It is nothing but coke dust.

All coke product is sifted and anything which screens less than three-eighths of an inch is "breeze," so rich in carbon that it has many times the heat of coal. No furnaces can be constructed with grates fine enough to burn it. Fifteen thou- sand tons a month of "breeze" ac- cumulates at the coke ovens in Gary. So far the only use found for it is costly. Experiments where "breeze" is mixed with sawdust for fireproof tile manufacture have also been tried.

An Infallible Remedy.

"Yes, Jim's easy. He sent \$5 to a concern for their infallible meth- od of getting rid of cockroaches and they advised him to burn down the house."

"Ha, ha, ha. Didn't try it did he?"

"Sure. He wasn't going to waste the \$5."

Know This Burglar?

"Had every cent taken last night. Woke up hearing some one in the room. Reached under the pillow for my revolver, but didn't shoot."

"Why didn't you?"

"I'd probably be a widower if I had."

A negro named Sam Young was, during his sleep the other night, bound to his bed at his home near Salisbury by his wife, who then set fire to the bed and vamoosed. Hemp cords were used to do the binding and the burning in two of these released the negro before he was seriously burned.—Lumberton Robsonian.

Dillon is moving to get the Cle- mon experiment station, and Dillon county would be a good place for it, and the Dillon people generally get what they go after. Dillon is not so good a place for it as Flor- ence, and we do not need to tell the board of trustees that for they know it, but they cannot give it to Florence for nothing when other communities are willing to aid in the establishment of it. Is Flor- ence going to do anything in the matter? If so she had better say so, at once.—Florence Times.

ACKNOWLEDGED IT.

Dillon Has to Bow to the Inevita- ble—Scores of Citizens Prove It.

After reading the public state- ment of this representative citizen of Dillon given below, you must come to this conclusion: A remedy which cured years ago, which has kept the kidneys in good health since, can be relied upon to perform the same work well in other cases.

Read this:

W. A. McCormac, Calhoun St., Dillon, S. C., says: "My back was very lame and often after sitting for awhile, I could hardly get up. I finally decided that my trouble came from my kidneys, as the kidney secretions were unnatural and contained sediment. Nothing gave me the least relief until I began using Doan's Kidney Pills. They stopped the backache and strengthened my kidneys. Now when I go to bed I can get my proper rest and my condition has im- proved in every way. I am pleased to give this account of my experience for the benefit of the kidney suf- ferers." (Statement given March, 1908.)

A Lasting Effect.

On January 3, 1911, when Mr. McCormac was interviewed, he said: "I can recommend Doan's Kidney Pills more highly to-day than I did two years ago, for I have been entirely free from kidney trouble since that time. My cure is a per- manent one."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buf- falo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

FOR RENT.—THE J. W. MOORE residence; 10 rooms. Apply to A. D. McKenzie, Rowland, N. C.

To Lonesome Women!

Women living on farms and in rural districts haven't time to seek and enjoy social pleasures. Distances are too great—the work is too urgent. Women grow lonesome and listless when robbed of these pleasures.

The Rural Telephone

solves the problem. It enables women to talk with neighbors and friends and keep alive to the news of the day. Our free booklet tells how you can have a telephone in your home at small cost. Women living in the country should write for it. Address

RHEUMACIDE

Almost a Miracle

Wonderful Cure in South Carolina

Dillon, S. C., August 16

In September, 1899, I took Rheumatism in a very bad form (Inflammatory). In a month after the disease started I had to give up my work and go to bed. It continued to grow worse until my arms and hands were badly swollen, so much so that I could not use them. My legs were drawn back until my feet touched my hips. I was as helpless as a baby for nearly twelve months. The muscles of my arms and legs were hard and shriv- eled up. I suffered death many times over. Was treated by six different physicians in Mecklenburg, North Carolina, but none of them could do me any good. Until Dr. J. P. Ewing of Dillon, came to see me. He told me to try your RHEUMACIDE. He got me one bottle of the medicine and I began to take it, and before the first bottle was used up I began to get better. I used five and a half bottles and was completely cured. That was two years ago and my health has been excellent ever since. Have had no symptoms of rheumatism, or Rheumatism on the market. I cannot say too much for it. I have recommended it to others since and it has cured them. Will say further, that I began to walk in about six days after I began to take RHEUMACIDE, with the aid of crutches, in about three months after I began to take it I could walk as good as anybody, and went back to work again.

JAMES WILKES

Dr. Ewing Confirms the Statement

Dillon, S. C., August 16

I used RHEUMACIDE on a chronic case of Rheuma- tion that had been unsuccessfully treated by several other physicians, and prescribed it more as a Placebo than anything else, and, to my surprise, the first bottle seemed to benefit him and I had him continue it, and in 3 months he was perfectly well. The patient was drawn up in his hips and arms that he could not even use crutches. I have since used RHEUMACIDE in other cases with success.
